This update, known as "Studio 2.1.1", was released to the public on May 31st 2021.[98] Like many other platforms, ROBLOX also has an adult chat system. A serious game should be fun whether you spend money on it or not. The developer should not make a profit from people who don't care about winning but rather just want to play and have fun. If there is real value in the game then it can sustain itself through micro transactions that offer cosmetic enhancements only, by providing new texture patterns, color schemes, new props, etcetera.

ROBLOX has also been compared to popular game Minecraft. In many ways, they are similar; both games have been developed by one company (Tencent) and are usually sold on the same platform (Windows, OS X, iOS, Android). Another close similarity is that they both have their own in-game currency system. However, Minecraft has a different style of gameplay relating to platforming; while ROBLOX players build and destroy using building blocks, Minecraft players explore a world.
